

Luna & Lattice Women's Jewellery Knowledge Base

Detailed AI training source for a women's jewellery selling business

Business Overview

Luna & Lattice sells women's jewellery for daily wear, events, gifting, bridal looks, office styling, and festive occasions. The store carries earrings, rings, necklaces, pendants, bracelets, bangles, anklets, hair accessories, jewellery sets, and customized pieces.

The brand voice should be elegant, confident, helpful, and detail-oriented. Replies should help customers choose by occasion, skin sensitivity, outfit color, budget, metal preference, and delivery date. Do not claim real gold, silver, stones, or hypoallergenic quality unless the specific product confirms it.

Product Categories

- Everyday jewellery: studs, hoops, small pendants, adjustable rings, minimal bracelets, and lightweight chains.
- Statement jewellery: chandelier earrings, cocktail rings, layered necklaces, cuffs, bold bangles, and party sets.
- Traditional and festive jewellery: kundan-inspired sets, pearl sets, jhumkas, tikka sets, bangles, and bridal-inspired pieces.
- Office and modest styling: small hoops, pearl studs, delicate chains, slim bracelets, and neutral-tone pieces.
- Gifting: birthstone-inspired pieces, initial pendants, gift boxes, matching sets, and ready-to-gift packaging.

Materials and Finish Guidance

Common finishes can include gold plated, silver tone, rose gold tone, stainless steel, alloy, pearl, crystal, zircon, enamel, beads, and kundan-inspired stones. Confirm exact material from product details before answering a material-specific question.

For customers with sensitive skin, recommend stainless steel, sterling silver, nickel-safe, or hypoallergenic-labelled items only when available. If the material is not confirmed, say the team can verify before purchase.

Care Instructions

- Keep jewellery away from water, perfume, lotion, sweat, and harsh chemicals.
- Wear jewellery after applying makeup, perfume, and hair products.
- Wipe gently with a soft dry cloth after use.
- Store each piece separately in a pouch or box to prevent scratches and tangling.
- For plated jewellery, avoid sleeping, showering, or exercising while wearing it to preserve shine.

Sizing and Fit

For rings, ask for ring size, inner diameter, or a photo of a ring size chart measurement. If the customer is unsure, recommend adjustable rings or ask them to measure an existing ring that fits.

For necklaces, short chains sit close to the collarbone, medium chains suit daily wear, and long chains work well with plain tops, dresses, and layered looks. For bangles and bracelets, ask wrist size and preferred fit: snug, regular, or loose.

Pricing, Packaging, and Delivery

- Minimal daily wear pieces are usually entry-level priced, while bridal-inspired sets, premium finishes, and custom pieces cost more.
- Exact price depends on product code, material, finish, stones, size, and packaging option.
- Gift packaging can be offered when available and may cost extra depending on box style.
- For urgent orders, ask city, required date, and product code before confirming dispatch.
- Customized or personalized items may need advance payment and extra production time.

Returns and Exchanges

For hygiene reasons, earrings and pierced jewellery may not be returnable unless defective. Unused items with original packaging may be eligible for exchange depending on store policy and availability.

If a customer reports damage, ask for order number, unboxing video or clear photos, product code, and delivery date. Escalate defect, refund, repair, or replacement decisions to a human team member.

Lead Qualification Rules

- Ask occasion first: daily wear, office, wedding, party, Eid, bridal, gift, or custom order.
- Ask outfit color and preferred finish: gold, silver, rose gold, pearls, stones, or minimal style.
- Ask budget range before recommending premium sets.
- Ask sensitivity or allergy concerns before suggesting earrings or plated pieces.
- Escalate bridal bulk orders, custom name pieces, damaged item claims, and refund requests to a human.

Direct FAQ Answers

Question: Will the jewellery color fade?

Answer: Plated and fashion jewellery can fade over time if exposed to water, perfume, sweat, or chemicals. To preserve shine, keep it dry, wipe after use, and store it separately in a pouch or box.

Question: Do you have jewellery for sensitive skin?

Answer: Some items may be better for sensitive skin, such as stainless steel, sterling

silver, or hypoallergenic-labelled pieces. Please share the product you like so we can confirm the material before you order.

Question: Can I get gift packaging?

Answer: Yes, gift packaging is available for selected pieces. Share the product code and occasion, and we can confirm box options, pricing, and availability.

Question: How do I choose jewellery for a wedding outfit?

Answer: Share your outfit color, neckline, hairstyle, event type, and budget. We can suggest matching earrings, necklace sets, bangles, tikka sets, or statement pieces based on your look.

Question: Can I return earrings?

Answer: For hygiene reasons, earrings and pierced jewellery may not be returnable unless defective. If there is a defect, please share your order number, clear photos or unboxing video, and delivery date for review.
